

NEWS RELEASE

SECO/WARWICK ISSUES NEW BROCHURE FOR ROLLER HEARTH FURNACES

For Immediate Release

Friday, September 26, 2008

Meadville, Pennsylvania

SECO/WARWICK has issued a new brochure that describes the distinctive features and process applications for Roller Hearth Furnaces. The roller hearth conveyor system can be provided in a wide range of sizes and types of electric or fuel-fired heating systems with matched cooling sections and system components such as charge and discharge table, quench systems, protective atmosphere systems, cooling equipment and loaders.

Print Brochures are available from Marketing Communications in the USA and may be downloaded in .pdf format at <http://www.secowarwick.com/thermal/RollerHearthFurnaces.pdf>.

SECO/WARWICK's Thermal Process Team designs and manufactures a wide variety of heat treating equipment configurations with and without the addition of protective atmosphere. Specialists in applications for automotive and aerospace components, tube and pipe manufacturing, electrical steel components and other unique and divergent applications, the Team can offer many types of quality furnace systems including roller hearth, rotary retort, rotary hearth, mesh belt, specialty box, bell and pit furnaces along with custom designed furnaces, all developed specifically to meet each user's plant, process and energy requirements. Visit the Thermal Process Team at <http://www.secowarwick.com/thermalprocess.html>

SECO/WARWICK Worldwide manufactures industrial heat processing equipment including heat treat furnaces, vacuum furnace technology, atmosphere generators and aluminum reverb melting and holding systems. SECO/WARWICK provides heat treating equipment and services worldwide for customers involved with primary aluminum, aluminum recycling, automotive, aerospace, commercial heat treating, HVAC, electronics, lighting, medical equipment and nuclear applications.

The globally integrated organization includes SECO/WARWICK Corp. (USA), Retech Systems LLC (USA), SECO/WARWICK S.A. (Poland), ELTERMA S.A. (Poland), SECO WARWICK Allied Pvt. Ltd. (India) and SECO/WARWICK Industrial Furnace Co. Ltd. (China).

The company has over 1000 employees worldwide, and is an industry leader in industrial heat processing equipment and processes. More information can be found at www.secowarwick.com.
