The systems cover the company and all areas of activity of its group which have a significant impact on the position of the company.

The principle is applied.
- 3.3. Companies participating in the WIG20, mWIG40 or sWIG80 index appoint an internal auditor to head the internal audit function in compliance with generally accepted international standards for the professional practice of internal auditing. In other companies which do not appoint an internal auditor who meets such requirements, the audit committee (or the supervisory board if it performs the functions of the audit committee) assesses on an annual basis whether such person should be appointed.
The principle is applied.
- 3.4. The remuneration of persons responsible for risk and compliance management and of the head of internal audit should depend on the performance of delegated tasks rather than short-term results of the company.
The principle is not applied.
Comments of the Company: *The remuneration of persons responsible for risk management and compliance as well as the person in charge of internal audit in the Company is based on a fixed basis, a bonus related to the performance of assigned tasks and an annual bonus related to EBIT.*
- 3.5. Persons responsible for risk and compliance management report directly to the president or other member of the management board.
The principle is applied.
- 3.6. The head of internal audit reports organisationally to the president of the management board and functionally to the chair of the audit committee or the chair of the supervisory board if the supervisory board performs the functions of the audit committee.

Comments of the Company: *Due to the organizational structure in the Company and the scale of the Group's operations, the head of internal audit reports to an organisationally competent member of the Management Board, and functionally to the chairman of the Audit Committee.*
- 3.7. Principles 3.4 to 3.6 apply also to members of the company's group which are material to its activity if they appoint persons to perform such tasks.
The principle is applied.

The management board and the supervisory board of listed companies should encourage the engagement of shareholders in matters of the company, in particular through active participation in the general meeting, either in person or through a proxy.

The general meeting should proceed by respecting the rights of all shareholders and ensuring that passed resolutions do not infringe on legitimate interests of different groups of shareholders.

Shareholders who participate in a general meeting exercise their rights in accordance with the rules of good conduct. Participants of a general meeting should come prepared to the general meeting.

- 4.1. Companies should enable their shareholders to participate in a general meeting by means of electronic communication (e-meeting) if justified by the expectations of shareholders notified to the company, provided that the company is in a position to provide the technical infrastructure necessary for such general meeting to proceed.
The principle is not applied.
Comments of the Company: *The Company does not conduct the General Meeting with the use of electronic communication means (possibly). Currently, the Company is not aware of the expectations of a wider group of Shareholders in the above-mentioned issue, which, in the Company's opinion, may result from the shareholding structure. Taking into account the above explanations, conducting the General Meeting with the use of means of electric communication is not justified due to the significant cost. At the same time, the Management Board declares that in the event of such a need being reported by a wider group of Shareholders, it will endeavor to apply the principle.*
- 4.2. Companies set the place and date and the form of a general meeting so as to enable the participation of the highest possible number of shareholders. For that purpose, companies strive to ensure that the cancellation of a general meeting, change of its date or break in its proceedings take place only if justified and do not prevent or limit the exercising of the shareholders' rights to participate in the general meeting.
The principle is applied.
- 4.3. Companies provide a public real-life broadcast of the general meeting.
The principle is applied.
- 4.4. Presence of representatives of the media is allowed at general meetings.
The principle is applied.
- 4.5. If the management board becomes aware a general meeting being convened pursuant to Article 399 § 2 - 4 of the Commercial Companies Code, the management board immediately takes steps which it is required to take in order to organise and conduct the general meeting. The foregoing applies also where a general meeting is convened under authority granted by the registration court according to Article 400 § 3 of the Commercial Companies Code.
The principle is applied.
- 4.6. To help shareholders participating in a general meeting to vote on resolutions with adequate understanding, draft resolutions of the general meeting concerning matters and decisions other than points of order should contain a justification, unless it follows from documentation tabled to the general meeting. If a matter is put on the agenda of the general meeting at the request of a shareholder or shareholders, the management board requests presentation of the justification of the proposed resolution, unless previously presented by such shareholder or shareholders.
The principle is applied.
- 4.7. The supervisory board issues opinions on draft resolutions put by the management board on the agenda of the general meeting.
The principle is applied.
- 4.8. Draft resolutions of the general meeting on matters put on the agenda of the general meeting should be tabled by shareholders no later than three days before the general meeting.
The principle is applied.
- 4.9. If the general meeting is to appoint members of the supervisory board or members of the supervisory board for a new term of office:
- 4.9.1. candidates for members of the supervisory board should be nominated with a notice necessary for shareholders present at the general meeting to make an informed decision and in any case no later than three days before the general meeting; the names of candidates and all related documents should be immediately published on the company's website;
The principle is applied.
- 4.9.2. candidates for members of the supervisory board make a declaration concerning fulfilment of the requirements for members of the audit committee referred to in the Act of 11 May 2017 on Auditors, Audit Firms and Public Supervision and having actual and material relations with any shareholder who holds at least 5% of the total vote in the company.
The principle is applied.
- 4.10. Any exercise of the rights of shareholders or the way in which they exercise their rights must not hinder the proper functioning of the governing bodies of the company.
The principle is applied.
- 4.11. Members of the management board and members of the supervisory board participate in a general meeting, at the location of the meeting or via means of bilateral real-time electronic communication, as necessary to speak on matters discussed by the general meeting and answer questions asked at the general meeting. The management board presents to participants of an annual general meeting the financial results of the company and other relevant information, including non-financial information, contained in the financial statements to be approved by the general meeting. The management board presents key events of the last financial year, compares presented data with previous years, and presents the degree of implementation of the plans for the last year.

The principle is applied.

- 4.12. Resolutions of the general meeting concerning an issue of shares with subscription rights should specify the issue price or the mechanism of setting the price or authorise the competent body to set the price prior to the subscription right record date within a timeframe necessary for investors to make decisions.

The principle is applied.

- 4.13. Resolutions concerning a new issue of shares with the exclusion of subscription rights which grant pre-emptive rights for new issue shares to selected shareholders or other entities may pass subject at least to the following three criteria:

- a) the company has a rational, economically justified need to urgently raise capital or the share issue is related to rational, economically justified transactions, among others such as a merger with or the take-over of another company, or the shares are to be taken up under an incentive scheme established by the company;
- b) the persons granted the pre-emptive right are to be selected according to objective general criteria;
- c) the purchase price of the shares is in a rational relation with the current share price of the company or is to be determined in book-building on the market.

The principle is applied.

- 4.14. Companies should strive to distribute their profits by paying out dividends. Companies may retain all their earnings subject to any of the following criteria:

- a) the earnings are minimal and consequently the dividend would be immaterial in relation to the value of the shares;
- b) the company reports uncovered losses from previous years and the earnings are used to reduce such losses;
- c) the company can demonstrate that investment of the earnings will generate tangible benefits for the shareholders;
- d) the company generates insufficient cash flows to pay out dividends;
- e) a dividend payment would substantially increase the risk to covenants under the company's binding credit facilities or terms of bond issue;
- f) retention of the company's earnings follows recommendations of the authority which supervises the company by virtue of its business activity.

The principle is applied.

5. CONFLICT OF INTEREST, RELATED PARTY TRANSACTIONS

For the purpose of this section, 'related party' is defined within the meaning of the International Accounting Standards approved in Regulation No (EU) 1606/2002 of the European Parliament and of the Council of 19 July 2002 on the application of international accounting standards.

Companies and their groups should have in place transparent procedures for managing conflicts of interest and for related party transactions where a conflict of interest may occur. The procedures should provide for ways to identify and disclose such cases and the course of action in the event that they occur.

Members of the management board and members of the supervisory board should refrain from professional or other activities which might cause a conflict of interest or adversely affect their reputation as members of the corporate body, and where a conflict of interest arises, they should immediately disclose it.

- 5.1. Members of the management board and members of the supervisory board notify the management board or the supervisory board, respectively, of any conflict of interest which has arisen or may arise, and refrain from discussions on the issue which may give rise to such a conflict of interest in their case.

The principle is applied.

- 5.2. Where a member of the management board or a member of the supervisory board concludes that a decision of the management board or the supervisory board, respectively, is in conflict with the interest of the company, he or she should request that the minutes of the management board or supervisory board meeting show his or her dissenting opinion.

The principle is applied.

- 5.3. No shareholder should have preference over other shareholders in related party transactions. The foregoing also concerns transactions concluded by the company's shareholders with members of the company's group.

The principle is applied.

- 5.4. Companies may buy back their own shares only in a procedure which respects the rights of all shareholders.

The principle is applied.

- 5.5. If a transaction concluded by a company with its related party requires the consent of the supervisory board, before giving its consent the supervisory board assesses whether to ask a prior opinion of a third party which can provide

valuation of the transaction and review its economic impact.

The principle is applied.

- 5.6. If a related party transaction requires the consent of the general meeting, the supervisory board issues an opinion on the rationale of such transaction. In that case, the supervisory board assesses whether to ask a prior opinion of a third party referred to in principle 5.5.

The principle is applied.

- 5.7. If a decision concerning the company's significant transaction with a related party is made by the general meeting, the company should give all shareholders access to information necessary to assess the impact of the transaction on the interest of the company before the decision is made, including an opinion of the supervisory board referred to in principle 5.6.

The principle is applied.

6. REMUNERATION

Companies and their groups protect the stability of their management teams, among others by transparent, fair, consistent and non-discriminatory terms of remuneration, including equal pay for women and men.

Companies' remuneration policy for members of corporate bodies and key managers should in particular determine the form, structure, and method of determining and payment of the remuneration.

- 6.1. The remuneration of members of the management board and members of the supervisory board and key managers should be sufficient to attract, retain and motivate persons with skills necessary for proper management and supervision of the company. The level of remuneration should be adequate to the tasks and responsibilities delegated to individuals and their resulting accountability.

The principle is applied.

- 6.2. Incentive schemes should be constructed in a way necessary among others to tie the level of remuneration of members of the company's management board and key managers to the actual long-term standing of the company measured by its financial and non-financial results as well as long-term shareholder value creation, sustainable development and the company's stability.

The principle is applied.

- 6.3. If companies' incentive schemes include a stock option programme for managers, the implementation of the stock option programme should depend on the beneficiaries' achievement, over a period of at least three years, of pre-defined, realistic financial and non-financial targets and sustainable development goals adequate to the company, and the share price or option exercise price for the beneficiaries cannot differ from the value of the shares at the time when such programme was approved.

The principle is applied.

- 6.4. As the supervisory board performs its responsibilities on a continuous basis, the remuneration of supervisory board members cannot depend on the number of meetings held. The remuneration of members of committees, in particular the audit committee, should take into account additional workload on the committee.

The principle is not applied.

Comments of the Company: *The rule is not fully applied by the Company. The principles of obtaining remuneration by members of the Supervisory Board are set out in the remuneration policy adopted by the Company and adopted by the General Meeting of Shareholders. Members of the Supervisory Board, regardless of their participation in the committees operating within the Supervisory Board, receive a fixed remuneration regardless of the number of meetings held. Members of the Supervisory Board participating in committees do not receive any additional remuneration. .*

- 6.5. The level of remuneration of supervisory board members should not depend on the company's short-term results.

The principle is applied.
