

R&D CAB Brazing Center for All Aluminium Heat Exchangers

■ **BRING your core. We will braze it!**

Reduce your investment risk by taking advantage of the SECO/WARWICK Brazing Center.

SECO/WARWICK Europe operates a fully equipped Brazing Center to support our customers by allowing them to run trials and prototypes of a wide variety of heat exchangers. The Center can then model and document complete process information and control recipes for your production requirements. The Brazing Center can perform double duty as a center for employee training. Customers may also purchase furnace time to run production on a cost-plus basis.

Brazing Center

The Brazing Center is fully equipped with an Active Only® CAB Brazing system, wet fluxer, thermal degreasing / drying / debinding / oven to allow customers to utilize a complete operational manufacturing cell. The test furnace can handle loads up to 1500 mm wide x 2500 mm long x 450 mm high (59 inch x 98 inch x 17 inch).

Why Active Only?

The Active Only® furnace offers these unique process benefits for large cores:

- The semi-continuous process configuration allows us to heat and cool even very large condensers at one time.
- Convection heating reduces cycle time and conserves floor space
- Uniform temperature throughout the braze area improves braze quality
- A sharper temperature profile provides accurate process control
- The AccuBraz® Control Systems provides fully automated process controls

Concerned about the location? SECO/WARWICK will assist customers in making travel arrangements to Poland as well as shipping product to and from the facility. Ask your local representative about the cost, you will be surprised at how little of an investment is required to save time and ease process concerns.

For more information and to schedule a demonstration, please contact Mr. Maciej Stempniewicz, Deputy Director, Sales Manager, CAB Furnaces Division via e-mail at maciej.stempniewicz@secowarwick.com, mobile +48-502-288-247; or contact Mr. Andrzej Bielewicz, Sales Engineer, CAB Furnaces Division, via e-mail at andrzej.bielewicz@secowarwick.com, mobile +48-516-057-526
