

**LET's meet  
MARCUS****MARCUS LORD**

MANAGING DIRECTOR, SECO/WARWICK USA

In SECO/WARWICK from: June 27, 2022

**My life in SECO/WARWICK GROUP...**

I take care of the daily operations of the location. Creating a culture of a "team", where we support each other for the growth of the business. Interaction with sales and customers alike, to give the best value and ution for their needs. Building a connection between Seco/Warwick divisions, both in the US and over seas.

**In my job, I like...**

To be able to create a vision that is shared between the employees and grow that vision to fruition. To help develop the employees to achieve their potential while retaining the talent to further support the growth and goals of the company.

**My family...**

Wife of 37 years, 2 daughters, 1 son-in-law, and two wonderful dogs

**My favorite tech-gadget...**

Are the tools my workers find to help them execute their jobs more efficiently

**After work I like...**

I like to work. Sounds strange, but I like to build and create. I enjoy restoring old cars, old homes, old furniture. Doing hard labor in landscaping, stone walls and brick pavers. Just totally destroying/ripping it apart and rebuilding to better than it first was. It is good for the restless soul.

**I love...**

To take a break and get away, where the static of everyday dissolves and disappears. That place is where the land and sea meet, the waves carry away the old and bring the new. Florida

**My hobby...**

As before, my hobby is working in some shape or form. The hobbie presents itself as I choose, when I choose. The key is not to have too many "hobbies" going on at one time.

**My favorite movie or book or actor/actress or art or painter or sports idol...**

My favorite author is Alan Furst. I enjoy his books that are historic fiction. They take place during and around WWII in Europe. Actual places and events with a fictional story line.

**When I was a young boy...**

I wanted to be a business owner. At 13, I had 10 paper routes where I just collected the money from my customers and I had 8 people working for me doing the delivering of the papers daily.

**My motto...**

If you don't ask, the answer is always NO.

**People don't know that I...**

I actually enjoy getting up every morning to see what the day will bring and that my mind never sits still. At times it is exhausting.

**My hidden talent...**

Is my ability to be patient

**I never...**

Assume or use my filter

**Makes me happy...**

My life and my family

**I like...**

Hot sauce, chili, soup

**Alternative profession**

Whatever I wanted
