

LET'S meet
PETER

PIOTR „PETER” ZAWISTOWSKI
MANAGING DIRECTOR, SECO/VACUUM, USA

In SECO/WARWICK from: Hard to say, there is a joke that I was born in the SECO vacuum furnace . . .

My life in SECO/WARWICK GROUP... I am currently the Managing Director of SECO/VACUUM in Meadville, PA. We are serving our vacuum heat treatment customers in North America.

In my job, I like... The variety of customers I get to engage with since our equipment is used in many different industries. One day I can meet with a client that performs simple heat treatment of nuts and bolts, the next day, we provide support in the development of new helicopter powertrains, and in other cases, we provide equipment to heat treat powerful magnet coils that are designed to contain nuclear fusion reactions. I'm not sure you can find any other job with that diversity.

My family... My lovely wife, two teenage boys, three cats and a gecko

My favorite tech-gadget... My iWatch, I'm not sure how I survived without it before

After work I like... Spend time with my family, ride my bike and maybe watch some movie in the evening with a glass of good bourbon on light ice

I love... Water . . . Swimming, Sailing, Windsurfing or just hanging out near the ocean, sea or a lake.

My hobby... Sailing, I started to race when I was 6 and still love sailing whenever I find time for it, wish I can do it more often... In the winter I love to ski, however I am getting a little older so I should probably slow down ...

My favorite movie or book or actor/actress or art or painter or sports idol... Movie: Back to The Future,
Book: Sapiens by Noah Harari – I can open it to any page and just start reading again,
Sportsman: Tiger Woods

When I was a young boy... I dreamed to go to the Olympic Games as an athlete, and believe it or not, I got close once

My motto... Every day may not be a good day, but there is something good in every day

People don't know that I... My left foot is a half inch smaller than the right one

My hidden talent... Billiards

I never... Dance or participate in karaoke singing

Makes me happy... Time with family

I like... That I work for SECO ;)

Alternative profession Ambulance driver, I like to drive fast so why not to do it for a living
